

Meet NEDC's 2014 – 2015 Law Clerk

Hello, I'm Becca Fischer, the new NEDC law clerk.

I'm originally from Billings, Montana but I went to undergrad at Willamette University in Salem so Oregon is my second home. My undergrad degree is in environmental science and after college I worked for an environmental non-profit in Montana for five years. During my time there, I focused on fighting dirty coal mining and protecting Montana's water from fracking for oil and gas. It's exciting to be working with NEDC and continuing to protect water from unlawful polluters. If you're on campus, please stop by the office and say hello!
