Law Computing Services

Welcome Adjunct Faculty,

Computing Services is here to help support you with your technology needs. We are available by phone at 503-768-6644 or you can create a work order by email by emailing lawitservice@lclark.edu. You can also stop by our offices on the 2nd Floor of Wood Hall.

If you would like a member of the Law Computing Services staff to give you an overview of the classroom technology please let us know. We have found that a little bit of training with the AV systems goes a long way.

All of our classes are recorded by default. You will receive a link to the recordings of your classes at the start of the term. You can use this link to see each recording for the term and can send the links of each video to your students if needed.
