

### Catalog Navigation Overview

The Course Catalog view in Student Planning is the primary tool for searching and filtering academic courses in the catalog. It provides two main ways to navigate: **Subject Search** for general course descriptions within a single subject (LAW) and **Advanced Search – Section Listing** for specific class times and availability.

You can search for specific courses or use filters to narrow down the results of your search. This guide will show you how to view LAW courses using the Advanced Search – Section Listing which will limit the results to sections offered within a given term or terms. To view all LAW courses, on the main Course Catalog screen click on Subject Search and then click on Law.

You can access the Catalog two ways:

- **From the homepage:** Click the **Catalog** tile.
- **From the hamburger menu (☰) at the top left:** Select **Academics**, then **Catalog**.

## Search for a section using the Advanced Search - Section Listing option

- **Select** a *Law* level **Term** from the drop-down menu. (Ex: **Law - Fall 2026**)
- **Select** “Law” from the **Course Subject** drop-down menu. (All Law courses use the same subject code “Law”)
- **Enter** a **Course Number**, if searching for a specific course
- **Click Search**

**Note:** You can search for courses across all available semesters by leaving the **Term** field blank. However, you must select “Law” from the **Subject** field to filter the results if you leave the **Term** field blank.
